

Annual reporting in accordance with Zewo Standard 12

(As of February 2026)

A strong and transparent annual report - your business card to donors and the public

By planning your 2025 annual report well in advance, you ensure that your organization builds trust and underscores its professionalism.

Digital reporting? Sure, but also make the annual report and the audited financial statements available for download.

To ensure compliance with the Zewo Standards, a final version of the annual report and the complete audited annual financial statements must be available for download from your website as PDF documents.

Reminder: Content required under Zewo Standard 12

If the annual report clearly indicates that the complete audited annual financial statements have been published on the website, the annual report and the complete audited annual financial statements may be published in two separate documents. This indication is also necessary if only summaries or excerpts of the audited annual financial statements, e.g. the balance sheet and operating statement, are included in the annual report.

Both the annual report and the website should include at least the following information:

1. The organization's purpose and objective
2. The members of the board of directors
3. The members of executive management
4. A summary of the services provided in the reporting period (annual report) / an overview of the fields of activity (website)
5. Statements on the topic of effectiveness in accordance with standard 10

If you have any questions regarding reporting, please contact us at info@zewo.ch or 044 366 99 55.

**Your donation
in good hands.**
